

All American
voters — all voters
(not all leaders)
in the number
are in a state of
mental pain

not men

Some mean this also.

the
US is a state of
mental pain.

Some evaluations
are more based

(Currying to Bayesians?)

Not purely analytical;
extra-analytical, "scientific",
reflective

(~~but~~ can be wrong: see P2!) "Rationalism"

Wasn't there a
time when the
relative standing of
the US in various
measures
was better than it
is?

Education; health; pensions;
equality; mobility;

Tempo, Speed? (all?) / tone?

Our tone is unbearable

No " " "

Our C² " "

Was central really
possible given
suppressed balance
(~~for~~, or profits)

or merger, given
actual 1960 balance?
(Europe?!)

↓ unusual about ^{Revol} US, ^{also}

In Q 60 - I know of

Was it as foolish/
unilament to require
post-altitude control
~~as to~~ (as "after" for

in researches,
